### EIA Renews Contract with Alliant

Under the direction of the Executive Committee, all EIA Committees have reviewed the comprehensive contract between the EIA and Alliant Insurance Services. This has been a year-long process and culminated with the Executive Committee's approval of a new two-year contract effective January 1, 2014. There were a handful of changes made as a result of the extensive review, however, there weren't any substantive changes made. If there are any questions, or if any members require a copy of the contract, please contact Mike Fleming at [m Fleming@csac-eia.org](mailto:m Fleming@csac-eia.org).

### Bickmore Purchased by York Risk Services Group

In case you haven't yet heard, Bickmore Risk Services has been purchased by York Risk Services Group (see [press release](#) for reference). The EIA has relationships with both firms as follows:

#### Bickmore:

Provides actuarial services for the PWC, EWC, PGL, GLI and Med Mal Programs  
Provides claims audit services for the EWC Program

#### York:

One of the approved third party administrators for the PWC Program

We are comfortable that we will be able to work with both Bickmore and York to address any issues arising from the acquisition. Any issues that arise will be brought to the appropriate Committee for consideration.

If you have any questions, please contact Gina Dean, Mike Fleming, or Jack Blyskal.

## Loss Data Webinars May 15th

The annual Loss Data Collection webinars will be held on Thursday, May 15th. There will be two webinars held this year; one geared towards members and another geared towards data providers. The loss data is used for actuarial studies, program renewals, updating our claims system, loss prevention evaluation, and supporting legislative initiatives. We encourage you to invite your data providers to attend the webinar as they do not receive EssentialLink.

### **Annual Loss Data Collection Process, Why We Need It, and What We Do With It:**

The first webinar begins at 10:00 and will be a high level overview of the loss data process and the benefits of good data for both members and the pool. This webinar is geared more towards members. There will be a few giveaways at the end of the presentation. [Register for this webinar.](#)

### **Data Provider Specification Review: Webinar**

The second webinar begins at 11:00 and is a more technical review of the loss data specification including changes made for 2014. It is geared more for data providers such as self-administered members and third party administrators. Not to leave out the data providers we will have some giveaway items at this webinar as well. [Register for this webinar.](#)

Members and data providers are welcome to attend both meetings. If you have questions please contact Laurel Raleigh
