Certificates of Insurance

Certificates of Insurance that were issued between 12/31 and 3/31 have been posted in the coverage documents area of the new Members Area. If you have any questions, or are having troubles locating your certificates, please feel free to contact Jessica Blushi for assistance.

MICRA Initiative

Some members may have received requests for information from CSAC requesting data as to the impact of the proposed increase of the MICRA cap from \$250,000 to \$1,160,000, and then escalating.

Please note that the EIA is working with our Medical Malpractice TPAs, RMS, and Bickmore Services to analyze the potential impact of the proposed increase on claims which have settled in the past few years, as a predictor of the impact going forward.

Additionally the EIA is joining with a broad coalition of public and private organizations, named CAPP (Californians Allied for Patient Protection) to try to defeat this measure. The initiative is expected to be on the November ballot, and is couched as a measure to require drug and alcohol testing for physicians. However, the true sponsor of the bill is the plaintiff's bar, hoping to both increase the limit of non-economic damages, and the percentage they can take as fees.

If you have any questions about this issue please contact Jack Blyskal, Chief Claims Officer.
